

# PANNEX™

## What is PANNEX™

A high security Rim Exit Device which will provide maximum security to the building and still maintain life safety requirements. Door Controls International designed the patented interlocking latch and strike to withstand 2000 lbs of applied force to the door, and is virtually impossible to pry open.

**New** alarm modules are now available and can easily convert the PANNEX™ into alarmed exit devices. A perfect solution for all loss prevention and access controlled applications.

DCI prides itself on manufacturing & assembling the PANNEX™ in Dexter, Michigan. Each device is quality tested throughout the manufacturing process to ensure every product meets our strict quality standards.

## Standard Features for all Alarm Modules

- Red flashing LED
- Audible signal when armed
- Penetrating 400 Hz Sound
- Horn is set for automatic rearm in 1-2 minutes, or field selectable for continuous sound.
- Recessed cylinder with improved installation.
- No tools required for battery service, only alarm key is needed.
- Low battery chirp @ 7.5 V
- Optional Signal Switches
